Education

National University of Science and Technology (NUST), EME Campus <i>Bachelor of Engineering in Computer Engineering — 2nd Year, 4th Semester</i> Islamabad, Pakistan	Sep 2024 – Expected Jun 2028
Beaconhouse School System <i>Higher Secondary Education (A-Levels)</i>	Aug 2011 – May 2024

Experience

DigiFloat <i>Software Engineering Intern — Islamabad, Pakistan</i>	May 2026 – Present
- Developing and shipping web application features using JavaScript, HTML, and CSS within an agile team. - Writing and executing test cases; identified and resolved critical bugs before production releases. - Collaborating with senior engineers on architecture decisions and code reviews for scalable deployments. - Optimizing front-end performance, reducing page load times through asset and workflow improvements.	

Hackathons & Leadership

Hack-Nation Global AI Hackathon — GIKI, Pakistan <i>Participant In collaboration with MIT Sloan Club</i>	April 25–26, 2026
- Competed in a global AI hackathon spanning locations including MIT, Stanford, NYC, London, and GIKI. - Built and presented an AI-driven solution within a 24-hour sprint; collaborated with cross-functional teammates under high-pressure conditions. - Engaged with industry sponsors including OpenAI, Databricks, World Bank Group, and Fulcrum Science.	

Projects

DSA Today <i>React, JavaScript, Vercel</i> dsa-today.vercel.app	January 2026
- Designed and deployed a structured learning platform for Data Structures and Algorithms with topic-wise modules and clean navigation. - Built a fully responsive, accessible UI; optimized Vercel deployment pipeline achieving fast cold-start performance.	
TuitionPro <i>JavaScript, HTML, CSS, Twilio API</i> tuitionpro-tau.vercel.app	March 2026
- Built a full-featured tuition management system for student records, fee tracking, and attendance administration. - Integrated Twilio WhatsApp Sandbox to automate fee reminders, cutting manual follow-up effort significantly. - Deployed publicly online with real-time notification workflows and a clean admin dashboard interface.	
Calorie Tracker <i>JavaScript, HTML, CSS</i> calorie-tracker-smoky-gamma.vercel.app	May 2026
- Built a nutrition and calorie tracking app with daily goal-setting, macro logging, and visual progress feedback. - Designed an intuitive single-page interface enabling users to monitor dietary targets with minimal friction.	
Humanizer 3.0 <i>Python, NLP, LoRA, Hugging Face</i> huggingface.co/spaces/khaliqabdull/humanizer3.0	June 2025
- Developed and deployed a live NLP application that humanizes AI-generated text, attracting active public users. - Fine-tuned a language model with LoRA and built end-to-end inference pipelines on Hugging Face Spaces.	

Technical Skills

Languages: Python, C++, JavaScript

Web Technologies: HTML, CSS, JavaScript, REST APIs

Core CS: Data Structures, Algorithms, Problem Solving, OOP

AI / ML: NLP, LoRA Fine-Tuning, Hugging Face, Model Deployment

Tools & Platforms: Git, GitHub, Vercel, Twilio API, VS Code

Soft Skills: Team Collaboration, Communication, Agile Workflow, Problem Solving under Pressure
